PROFESSIONAL SUMMARY

Full-Stack Developer with proven expertise in building responsive applications using React.js, Python, and RESTful APIs. Demonstrated ability to design scalable, performance-focused solutions that enhance user engagement and drive subscription growth. Committed to working closely with product teams to implement innovative features, optimize backend systems, and resolve production issues in fast-paced environments.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, HTML, CSS, C++
- **Frameworks & Libraries:** Django, Flask, React.js, SCSS, Tailwind CSS
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Tools & Technologies:** Git, Docker, RESTful APIs, Postman, Figma
- **Development Practices:** Agile Methodologies, Scrum, UI/UX Design

WORK EXPERIENCE

Techroot

2020 - 2024

Full Stack Developer

Bhopal

- Led design, development, and deployment of full-stack web applications using Python, Django, and React.js, partnering with product teams to implement growth-related features and drive user engagement.
- Architected and implemented secure, scalable RESTful APIs, reducing data retrieval time and ensuring high system reliability while considering performance and future development.
- Optimized backend database systems and refined SQL queries to improve data access speed and overall system performance, ensuring robust data persistence.
- Collaborated with cross-functional teams including product managers and designers to deliver responsive user interfaces using HTML, CSS, and JavaScript, contributing to strategic product improvements.
- Mentored junior developers in best practices, code quality, and agile methodologies, fostering continuous improvement and influencing technology direction.

Cybrom Technology Pvt. Ltd.

Mar 2025 - Present

Full-Stack Python Developer

Bhopal, Madhya Pradesh

- Engineered 5+ dynamic web applications using Python, Django, and React.js, focusing on constructing features that drive growth and enhance subscription products.
- Designed, constructed, and fine-tuned 10+ scalable RESTful APIs, cutting response times by 40% and ensuring robust data persistence for backend services.
- Developed dynamic front-end interfaces with React.js, HTML, CSS, and JavaScript, resulting in a 25% boost in user interaction and aligning with product experiments.
- Managed MySQL, PostgreSQL, and MongoDB databases to trim query execution times by 20%, ensuring optimal performance and data integrity.
- Re-engineered processes to streamline workflows by 40%, enhancing team collaboration and cross-functional communication in a fast-paced environment.
- Collaborated with senior developers to investigate and resolve critical bugs, reducing application errors by 35% and improving production stability.
- Contributed to agile practices, achieving 95% on-time sprint completion through effective daily stand-ups and sprint planning, and proactively suggesting product improvements.

EDUCATION

All Saints' College of Technology (ASCT), Barkatullah University | Bhopal

Master of Business Administration, HR and Finance

Leo College, Govind Guru Tribal University

Jun 2015 - Jul 2017

Bachelor of Computer Applications, Computer Science

PROJECTS

Cafe Zafran Restaurant Website
